Objective

Front-end web developer leveraging background in English and linguistics to build an intuitive, user-friendly web experience. Certificate in Full Stack Web Development from the University of North Carolina at Charlotte, with newly developed skills in HTML, CSS, JS, React.js, as well as multiple backend technologies Excited to approach new and challenging tasks and leverage my skills as part of a face-paced, driven team to build better web experiences for users.

Experience

Barista | _Starbucks_   OCT 2021 – CURRENT

- Held various customer service roles including barista, sales assistant, and cashier in an extremely fast-paced environment while working efficiently on a team to properly communicate to properly provide quality, quick coffee, and uplifting service to customers.

Server | _Umami_   JAN 2021 – SEP 2021

- As a top server, played an instrumental role in improving and designing the menu's layout, and decrease unpopular items to help maximize efficiency, save resources, reduce fees, and ensure the continuation and enhancements of quality service.

Receptionist| _Carolina Psychiatry_   Nov 2019 – May 2020

- Increased the proficiency of daily office operation and time management by 30% through helping initiate multi-tasking duties and scheduling out specific task for each front-office employee, such as managing office communication support between clients and Psychiatrist. As well as, through developing a system between employees to optimize client record-keeping that eliminated a severe record-keeping accumulation within six weeks of initial hiring.
